RE: WT Docket No. 11-65. In the Matter of applications of AT&T Inc. and Deutsche Telekom AG for consent to assign or Transfer Control of licenses and Authorizations.

Dear Chairman Genachowski and Commissioners:

For nearly four decades, the mission of CAMACOL, the largest Hispanic business organization in the state of Florida, has been to cultivate the entrepreneurial spirit of Florida's Hispanic and minority communities. We do this by producing programs and supporting initiatives that strengthen and grow local business activity, promote economic development and address the critical needs of our community.

Writing today as the president of CAMACOL, I support AT&T's merger with T-Mobile because I believe it presents a prime opportunity to strengthen local businesses by implementing the most critical infrastructure of the 21<sup>st</sup> century, high-speed wireless Internet. I urge your support of the combination of AT&T and T-Mobile resources in order to quickly bring the benefit of high-speed mobile broadband to my members.

Currently businesses, especially minority businesses lacking access to high speed mobile broadband, have a severe handicap when competing in an increasingly high-tech environment. The pervasive coverage and increased network capacity coming from this merger will serve as an equalizer for America's small and minority businesses wanting to keep pace with larger organizations.

Those small businesses with access to high speed broadband connections are already using wireless to be more effective and successful competitors. As growing numbers of Americans across all demographics and age ranges continue to adopt wireless technology, small businesses can use increased mobile connectivity to get, and stay, connected with their customers. I am confident that this merger helps further both trends.

For the reasons I have stated above, I seek your support of this merger so my members will be able to be more prosperous through the benefits faster and better wireless broadband.

Sincerely,

  
Luciano Garcia  
Executive Director  
CAMACOL
